

GDP FILTER

As leading membrane manufacturer in the region, **GDP Filter produces high quality membranes** for various applications.

Founder

Dr. I G. Wenten

Board of Experts

Dr. I G. Wenten Department of Chemical Engineering, Institut Teknologi Bandung (ITB)	Prof. Dr. Ir. Wajuningsih, Dpt. S.E Department of Environmental Engineering, Institut Teknologi Bandung (ITB)	Prof. Dr. Ir. IGN. Wiratmaja Puja Department of Mechanical Engineering, Institut Teknologi Bandung (ITB)	Dr. rer. nat. Heru Susanto, ST, MM, MT Department of Chemical Engineering, Diponegoro University (UNDIP)	Dr. I N. Widada, ST, MT Department of Chemical Engineering, Diponegoro University (UNDIP)

Our Motto

Our principle of never ending improvement to aim perfection is devoted to brighter future of human being, as we said, **"Innovative Solutions for A Better Life"**.

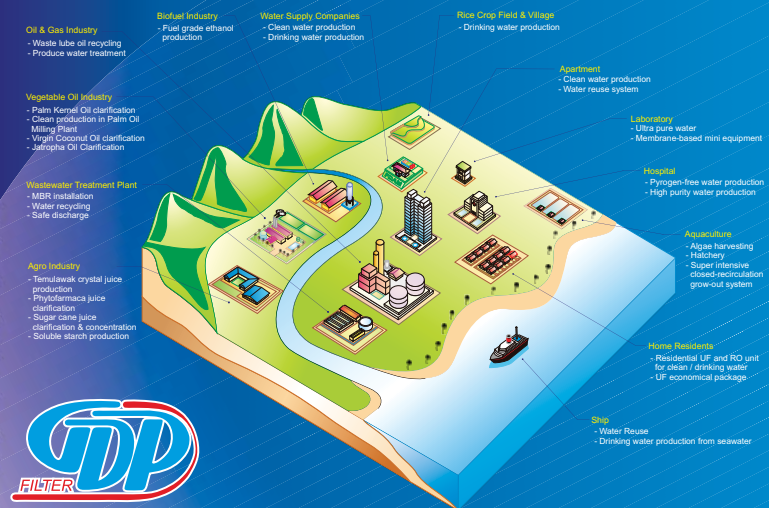

GDP team meet the membrane experts : Prof. Anthony Gordon Fane, Prof. Kang Li, Prof. William Bernard Krantz, Prof. Kazuo Yamamoto

Partnership

We firmly believe in the triangle of research-observation-networking in order to keep on innovating. Thus, we form mutual partnership with LPIK ITB, Woongjin Chemical Co. Ltd and Shanghai Megavision Membrane Engineering & Technology Co. Ltd.

Scope of Service

Holding on the spirit to serve, GDP Filter offers the concept of **Total Solution** to customers. Our experiences range from production of high purity water, industrial process water, drinking water, to even **Unique Cases** such as vegetable oil filtration, pervaporation, and waste lube oil recycling.

Never Ending Innovation
